Hands-on Advanced Tutorial Sessions at the LPC - HATS@LPC and LPC Academic Lectures

The schedule for upcoming and past HATS@LPC and LPC academic lectures is maintained in this page. Details on each tutorial, including an Indico page with a description will be announced as the event gets closer. All HATS@LPC sessions will take place in the Sunrise 11th floor conference room (WH11NE) at the LPC (and on Zoom unless otherwise specified).

LPC academic lectures, when hosted physically at the LPC, they are usually held in the morning Central (Daylight) Time and may be occasionally hosted in larger conference rooms to allow for wider participation. When they are not hosted at the LPC, but at US CMS institution, arrangements can be done to have an LPC conference room.

Advanced (no cost) registration is required for participation in these events (see registration link on the respective Indico agenda). Fermilab [site access](#) is **required** for onsite participation: apply more than 4 weeks in advance.
